Bhaavan Goyal

Ajmer, Rajasthan| Ph: +91 6375134427 | bhaavangoyal@gmail.com | [LinkedIn](#) | [Github](#)

SKILLS

- **Technical Skills:** Python, Data Analyst, Power BI, C++, SQL, Front-End Development.
- **Marketing and Sales Skills:** Market Research and Analysis, Content Marketing, Branding and Positioning, Campaign Management.

EDUCATION

VIT Bhopal University   **Jun 2021 - Present**

Bachelor of Technology

Computer Science and Engineering, CGPA: 7.44/10

Schooling : **ST. Anselm's Sr. Sec. School , Ajmer (Raj.)**

Intermediate(10+2) Percentage 89%

Matriculation , Percentage 89.6%

CERTIFICATIONS

- Applied Machine Learning in Python
- NPTEL certification in cloud computing

ACADEMIC PROJECTS

Heart Disease   **(April 2023 – June 2023)**

- **Description:** Developed a system for heart disease prediction using artificial neural networks and image processing with accuracy 93%..
- **Role:** Functioned as the module systems developer, contributing to algorithm design and implementation.
- **Technology:** Computer Vision, Artificial Neural Networks, CNN
- **Link and Results:** [Heart Disease Prediction Model](#)

Medicrypt   **(January 2024 – May 2024)**

- **Description:** Innovated a blockchain-based platform that revolutionizes healthcare management through secure, decentralized, and user-empowered medical data management solutions.
- **Role:** Served as the Research Engineer and Front-End Developer, focusing on the user interface and integration of advanced features.
- **Technology:** DuoLingo, HTML, CSS, Geo-Tagging, Chatbot, Recommendation System, Blender.

Ethereal – A Decentralized Banking System   **(Sept 2024 – Apr 2025)**

Description: Built a decentralized virtual banking system on the Ethereum blockchain allowing users to perform core banking functions such as deposit, withdrawal, and transfer without a central authority.
Role: Led the documentation efforts and contributed to technical architecture; collaborated with frontend and backend teams to ensure accurate and comprehensive reporting of the system design and development process.
Technology: Solidity, React.js, Ganache, Metamask, Truffle, Web3.js

ACHIEVEMENTS AND EXTRACURRICULAR

- **Co-Lead, Insights Club :** Guided Team Members to execute multiple tech related tasks
- **Member, Student Leadership Society (SLS):** Organized events with a footfall of 300+ students
- Managed various events during the college tenure.
- **National Cadet Corps (NCC):** Active participant in national service schemes and leadership training.
- **Sports:** Captain of the Cricket Team, leading the team in various intercollegiate tournaments and fostering team spirit.

ADDITIONAL INFORMATION
- **Languages:** English, Hindi

- **Interests:** Technology Innovation, Data Security, Event Planning, Marketing Strategies.
